

# Bridging structural biology and drug discovery - II

## Wednesday 11 May 2022

### Sessione: 2 (11:10-12:30)

**-Conveners: Angela Stefanachi**

time	[id] title	presenter
11:10	[11] Single Crystal X-Ray Crystallography lights up pharmaceutical compounds: main investigations and structural insights	Dr MOLITERNI, Anna
11:30	[7] Facing sustainable challenges in the FLAME lab: an overview on main synthetic tactics using flow technology to access new chemical space	Prof. DEGENNARO, Leonardo
11:50	[13] Natural and synthetic effectors of alpha-synuclein: features and interplays	Dr BELLIA, Francesco
12:10	[9] A reliable cellular model-based platform for pharmacological preclinical studies on Tubular Aggregate Myopathy and SOCE-related muscle disorders	Dr CONTE, Elena
